	FIG congresses and annual working weeks, as well as in
	many other FIG workshops.
	Delivered a large number of presentations on subjects of
	surveying, cadastre, spatial information and GIS
	management in these events.
Field of surveying discipline	Digital Mapping; Photogrammetry; Spatial Information;
i lota of bar veying alsorphile	Geographical Information Systems; Cadastre and Land
	Information Systems.
Nominees Statement	
Why I want to be a	During more than 40 years of my professional career I
Commission Chair and what I	have gained considerable experience both as a practitioner
would like to achieve	engineer as well as an academic Professor - researcher and
	teacher. The experience I gained In the fields of digital
	mapping and photogrammetry, GIS, cadastre and LIS, is
	very relevant to FIG activity in general and to Commission
	3 in particular.
	I am extensively involved In FIG matters for many years
	and since the mid 1990s I am the Israeli national delegate
	to Commission 3. As an active member in commission 3, I
	did my best to contribute to its activity, to share my
	knowledge and experience with my colleagues, and to
	actively participate in conferences and workshops.
	Facing the challenges of our profession at the beginning of
	the 21st century, I think that I can lead Commission 3 in
	continuing its very successful work of the last decade or so.
	I would like to encourage delegates from all countries to
	participate and contribute to the spatial information
	Datucidate and continuute to the spatial information
	management community; to organize annual workshops

focused on specific predefined topics; and to motivate professionals from industry and academia to participate and contribute their know-how for the benefit of our profession and our society.What I can offer to FIG in support of the aims and objectives of the CommissionIt is too early to plan in detail objectives for Com 3 for the period of 2010-2014, but my initial sketch for supporting the objectives of the commission for this period is based on the following: - Increase the participation of professionals from underrepresented regions like Africa, Latin America, and Asia. - Expand the involvement of people from the academia in order to mix the practical and the theoretical aspects of SIM. - Cooperate with other commissions within FIG on mutual aspects of SIM, inter alia with Com 2 (professional education), Com 5 (positioning and measurement), Com 7

Nominator's statement		
Why the association wants to nominate Nominee	Professor Doytsher holds BSc, MScand DSc degrees in Geodesy, and is a Full Professor of Mapping and Geo- Information Engineering at the Technion. He has a long history of practical engineering and land surveying experience in the public and private sectors in Israel and has significantly contributed to our profession. In the last decade he developed new standards and ideas in order to face the new challenges of our profession. His extensive research experience in the different aspects of cadastre, mapping and surveying, which are all relevant to Com 3 activity, is also worth mentioning. His current position as the Dean of the Faculty of Architecture and Town Planning at the Technion will contribute to a better understanding between all the professionals that are involved in the activity of FIG. Professor Doytsher is extensively involved in FIG matters. He is the Israeli national delegate to commission 3 for many years and had participated in many FIG conferences and workshops, sharing his experience by lecturing on his fields of expertise.	
Support the Association can	The Israel Licensed Surveyors Union Association will give	
offer the Nominee (financial and other)	full administrative, professional and financial support to Professor Doytsher in fulfillment of his task. once he will be elected.	
Any other comments	Professor Doytsher is personally and professionally appropriate to carry out the position of Chair of Commission 3. Being elected would undoubtedly contribute immensely to FIG and the international community of surveyors in general and to Commission 3 in particular.
