UNIVERSITY OF COPENHAGEN

Deenmark: Strategies for e-Government since 2002...

The image shows three overlapping covers of Danish e-government strategy documents. The 2002 cover is teal and titled 'På vej mod digitalt' with the subtitle 'vision og strategi for den'. The 2004 cover is also teal and titled '2004'. The 2011 cover is white and titled 'DEN DIGITALE VEJ TIL FREMTIDENS VELFÆRD' with the subtitle 'DEN FÆLLESØKONOMISKE DIGITALISERING 2011-2015'. It also features a photo of two children looking at a screen. A small box on the right side of the 2011 cover contains the text 'STRATEGI FOR DIGITALISERING AF DEN OFFENTLIGE SEKTOR 2007-2010' and 'MOD BEDRE DIGITAL SERVICE, ØGET'. The University of Copenhagen logo is visible in the bottom right corner of the slide.

Quote from the latest strategy:

“Our living conditions and well-being rely on a diversity of natural resources and a healthy environment. It is therefore essential that we plan and manage our natural resources and the environment efficiently. And to do this, we need coherent, nationwide data on the environment that citizens, companies and authorities can trust”

(The Danish Government, 2011, p. 32)

Legal definition of spatial object

5. 'spatial object' means an abstract representation of a real-world phenomenon related to a specific location or geographical area;

INSPIRE Directive art 3(5)

The national legal database

The screenshot displays the homepage of the national legal database, **retsinformation.dk**. It features a search bar with the text "Indtast et eller flere søgeord:" and a "Søg" button. Below the search bar are navigation links for "Følg sagninng" and "Simpel sagninng". A sidebar on the left contains links to "Danske Love", "Ministerieindgang", "Folketingets Ombudsmand", and "Om retsinformation.dk". The main content area is titled "PDF-visning af forskrifter m.v. på retsinformation.dk" and includes a detailed explanation of the PDF viewer functionality. Below this is a section for "Nylste regler" with a dropdown menu for "Alle områder" and a "Vis" button. At the bottom, there are four informational boxes: "Hvad er retsinformation.dk?", "Cookiepolitik", "Hurtig søgning", and "Søgning på dokumenttype".

Conclusions

Suggestions:

- 1) Tie the legal value to the showing of the map
- 2) Embed decisions on geographical accuracy of the legal objects of the map in the legislation.
